Container #: TGXU		Date:
Washout Location:		Vendor:
		Employee:
Time in:	Time out:	
Vendor and employee verify they have read, been trained, understand, and are applying the Shipping Container Sanitation SOP provided by Tiger Cool Express, LLC. Signature: _____		
DO NOT WASH IF THERE IS ANY CARGO IN THE CONTAINER. Report issues to Tiger Cool Express, 913-305-3549.		

Pre-wash Checklist:

- Inspect outside of container for damage.
- Inspect door closure and locking area for damage.
- Open both back doors and inspect the internal door seals for gaps or damage.
- Inspect the inside of the container for any damage to floor, walls, or refrigeration duct.
- Inspect that internal temperature monitoring probes are not damaged or missing.

Wash Checklist:

- Container swept with a stiff bristle brush to remove all loose debris.
- Using hot water 120 to 170 (Fahrenheit) degrees of potable water sprayed at a minimum of 2800 lbs. pressure, spray wash the container floor and 6 to 12 inches up the walls of the container. The washing should be an even spray starting at the front of the container and moving to the back of the container. The operator must be careful to spray between the ribs on the floor to get a complete cleaning.
- Do not spray water on the temperature probes in the container.
- When spray is complete, allow residual water to drain from the container, make sure the drain holes are free to debris and allowing the water to completely drain.
- Inspect the container for areas that require additional washing, making sure the entire floor has been washed and is completely free of debris.
- Re-wash as needed.
- Allow the residual water to drain from the floor.

Sanitizing Checklist:

- Mix 2 ounces of Univar Quat DS in four gallons of clean potable water.
- Test and verify strength: minimum 200 PPM but less than 250PPM.
- Apply an even spray of sanitizer over the entire floor area up to 6 inches up on the wall.
- Start at the nose (front) of the container and walk backwards towards the rear of the container. Cover the floor completely and evenly.
- Immediately close and seal the container after the sanitizer is applied.
- Seal numbers: _____
- Apply Washtag

Keep a copy for your records and send the completed Washout/Sanitizing Record to: washout@tigercoolexpress.com.
